OBJECTIVE

Motivated and detail-oriented computer science final-year student with strong skills in front-end development, networking, and IT support. Passionate about UI/UX design and creating responsive web applications. Interested in a dynamic role to apply technical and creative abilities in the creation of user-friendly digital solutions while continuing to grow professionally in a tech-driven, forward-thinking environment.

EDUCATION

Bachelor of Computer Science and Engineering, City University Expected 2026
CGPA: 3.00

Higher Secondary Certificate (H.S.C), Lincoln millennium college 2018-2020
GPA: 4.92(Science)

Secondary School Certificate (S.S.C), Baghia Momin Sharker Academy 2016-2018
GPA: 4.67(Science)

SKILLS

Technical Skills

- Programming Languages: Java, Python, JavaScript, C, C++
- Web Development: HTML, CSS, Tailwind CSS
- Database Management: MySQL, SQL
- Tools and Platforms: GitHub, Figma (UI/UX), VS Code

Soft Skills

- Problem-Solving and Analytical Thinking
- Teamwork and Collaboration
- Adaptability and Quick Learner
- Effective Communication
- Leadership and Initiative

EXPERIENCE

Campus Ambassador Jan 2024 - Feb 2025
Programming Hero

- Increased brand awareness through campus events, social media outreach, and peer-to-peer engagement
- Organized and coordinated workshops to encourage student participation in coding and tech learning.
- Successfully planned and hosted hackathons, fostering a competitive and collaborative programming environment.

Private Tutor May 2022 - Present
Self Employed

- Providing one-on-one tutoring in subjects such as Mathematics, Science, English for students from primary to secondary.
- Creating personalized lesson plans to improve student understanding and academic performance.
- Tracking progress and adjusting teaching methods to suit individual learning styles.
- Building strong communication skills and time management through scheduling and parent interaction.

PROJECTS

Online Farmer's Market and Bidding System: Team Lead and UI/UX Designer — HTML, CSS, Tailwind CSS, Laravel, Vue.js, MySQL. Developed a web and mobile platform for farmers and buyers to trade products through real-time bidding. Designed all UI interfaces for web and mobile using modern responsive frameworks. Integrated secure login/signup with user role verification (Admin, Farmer, Buyer). Implemented features like payment gateway, notification system, and smart contract system.

NightFlix – Movie Server(Frontend): HTML, CSS, Tailwind CSS, JavaScript Designed and developed a modern UI movie server website for browsing and streaming movie content. Built a responsive front-end interface using Tailwind CSS, ensuring seamless viewing across devices. Implemented JavaScript functionality for interactive features such as dynamic content loading and smooth navigation. Focused on user experience (UI/UX) with a clean, minimalist design inspired by modern streaming platforms.-[Link](#)

AI Trip Planner: Developed a dynamic, single-page application for creating personalized travel itineraries. Utilized the Gemini API to generate custom, day-by-day travel plans based on user input for destination, duration, and interests. The project features a sleek, responsive interface built with HTML, CSS, Tailwind CSS, JavaScript, and includes voice command functionality through the Gemini API for enhanced user experience.-[Link](#)

CERTIFICATION

Full Stack Development with MERN GRAMEENPHONE ACADEMY	Jun 2025
Career Essentials in Data Analysis by Microsoft and LinkedIn MICROSOFT and LINKEDIN LEARNING	Aug 2024
UI/UX Design for beginner GREAT LEARNING	Jan 2023
Graphic Design PENTANIK IT SOLUTION PARK	Jun 2021

LEADERSHIP

- Led UI/UX design for group projects (Online Farmer's Market and Bidding System).
- Coordinated with team members on research and front-end integration.
- Organized workflow, ensuring timely project completion.
- Took initiative in brainstorming creative solutions and presenting ideas.
- Decision Making - choosing the best solutions in critical situations.
